Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If the period for reply specified above is less than thirty (30) days, a reply within the statutory minimum of thirty (30) days will be considered timely.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133).
- Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

DETAILED ACTION

Election/Restrictions

1. Newly submitted claims 23-34 and amended claim 22 are directed to an invention that is independent or distinct from the invention originally claimed for the following reasons:

2. Restriction to one of the following inventions is required under 35 U.S.C. 121:

- I. Claims 1-21, drawn to an apparatus and method for allocating equipment, classified in class 705, subclass 28.
- II. Claim 22, drawn to a method of allocating and purchasing equipment, classified in class 705, subclass 26.
- III. Claims 23-34, drawn to an apparatus for allocating equipment combined with a compliance module or a work module or a graphical information module, classified in class 705, subclass 8+.

The inventions are distinct, each from the other because of the following reasons:

3. Inventions I, II and III are related as subcombinations disclosed as usable together in a single combination. The subcombinations are distinct from each other if they are shown to be separately usable. In the instant case, invention I has separate utility such as a method and apparatus for allocating equipment without the additional modules for purchasing or compliance testing or work planning or graphical information illustration. See MPEP § 806.05(d).

4. Because these inventions are distinct for the reasons given above and have acquired a separate status in the art as shown by their different classification, restriction for examination purposes as indicated is proper.

5. Since applicant has received an action on the merits for the originally presented invention, this invention has been constructively elected by original presentation for prosecution on the merits.

Accordingly, claims 22-34 are withdrawn from consideration as being directed to a non-elected invention. See 37 CFR 1.142(b) and MPEP § 821.03.

Claim Rejections - 35 USC § 102

The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

Claims 1-13, 15 and 18-21 are rejected under 35 U.S.C. 102(b) as being clearly anticipated by Harris et al. Harris et al show an automated system and method for matching available equipment to a recipient including an equipment database 32 that includes attributes of the equipment, see col. 6, lines 40-43 and col. 8, lines 1-23, a database manager 33, a database maintenance module that loads the data into the database, an inquiry module 30, an inventory module that updates the data after a match, a transportation module that controls shipping, an installation and removal module that tracks the location history of the equipment, see col. 12, line 63 to col. 13, line 2 and col. 13, lines 30-

38. Periodic searching of the database is disclosed in col. 6, line 36 and col. 11, lines 34-44.

Claim Rejections - 35 USC § 103

The following is a quotation of 35 U.S.C. 103(a) which forms the basis for all obviousness rejections set forth in this Office action:

(a) A patent may not be obtained though the invention is not identically disclosed or described as set forth in section 102 of this title, if the differences between the subject matter sought to be patented and the prior art are such that the subject matter as a whole would have been obvious at the time the invention was made to a person having ordinary skill in the art to which said subject matter pertains. Patentability shall not be negated by the manner in which the invention was made.

Claim 14 is rejected under 35 U.S.C. 103(a) as being unpatentable over Harris et al in view of Ruffolo et al. Harris et al show all the features of the applicant's claimed invention except the equipment being a transformer. Ruffolo et al disclose an inventory tracking system for transformers, see col. 1, line 22. It would have been obvious to one of ordinary skill in the art in view of the showing and teaching of Ruffolo et al to include transformers in the equipment that is tracked in the system of Harris et al.

Claim 17 is rejected under 35 U.S.C. 103(a) as being unpatentable over Harris et al in view of Ruffolo et al. Harris et al show all the features of the applicant's claimed invention except the bar code

scanner. Ruffolo et al disclose an inventory tracking system including a bar code scanner to enter data, see col. 4, lines 20-31. It would have been obvious to one of ordinary skill in the art in view of the showing and teaching of Ruffolo et al to provide the system of Harris et al with a bar code scanner to enter data into the database.

Response to Arguments

The applicant's remarks have been considered but have not been found persuasive because Harris et al disclose in col. 12, line 64 to col. 13, line 2 that the database is updated to record a new location of the equipment. Recording a new location of the equipment is recording that the equipment was transported from the old location to the new location.

Conclusion

6. **THIS ACTION IS MADE FINAL.** Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire **THREE MONTHS** from the mailing date of this action. In the event a first reply is filed within **TWO MONTHS** of the mailing date of

this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the mailing date of this final action.
